THE HELPING COMMUNITY

What is Crowdfunding

Crowdfunding is a method of raising money from a large number of people, typically via an online platform. It allows entrepreneurs, artists, and others to fund their projects without relying on traditional sources of funding. The process involves setting a funding goal, promoting the campaign through social media and other channels, and offering rewards or equity in exchange for contributions.

Crowdfunding can be donation-based, reward-based, or equity-based, and has become increasingly popular as a way to launch new products, fund creative projects, and support charitable causes.
